Faculty position in Fish Ecology

The Université du Québec à Rimouski (UQAR) invites applications for a full-time tenure-track faculty position in Fish Ecology in the department of Biology, Chemistry, and Geography. We are seeking candidates with a Ph.D. in Biology (or the equivalent) and with training in Fish Ecology/Evolution/Conservation. The successful candidate will be expected to contribute significantly to teaching at the undergraduate and/or the graduate levels. He or she will be responsible for teaching ichthyology, limnology, and aquatic wildlife management. He or she will supervise graduate students, develop an active in research program, and contribute to all activities concerning the life of our Department and University.

We are looking for someone who can complement our departmental team working in Evolutionary Biology, Evolutionary Physiology, Molecular Ecology, Ecology and Conservation Biology, Global Change Biology and Paleontology. The appointed candidate will also have the opportunity to be part of the departmental research group BORÉAS working on various aspects of Northern research.

The Université du Québec à Rimouski is a public French-language university that ranks consistently among the top small-size universities in Canada for the productivity and quality of its research. Teaching is solely in French. UQAR is an equal opportunity and affirmative action employer. Priorities will be given to women, first nation, visible and ethnic minorities, as well as people with disabilities.

Interested candidates are invited to submit an application including their curriculum vitae, a statement describing their current and proposed research program (maximum 5 pages), as well as a statement of their teaching philosophy (maximum 5 pages) and the name of three contacts who can provide reference letters. These documents must be delivered via email by June 30th 2021 to France_dufresne@uqar.ca.
