

Every year, the Vegetation Section of the Ecological Society of America awards the Ton Damman Award to the best oral presentation by a graduate student (or very recent graduate student) at the ESA meeting. The cash award is \$500.

Information about the award is given below (some of the data on the web sites is out of date, due to problems with the web site). If you are a graduate student or know of a graduate student who is interested, please pass this message on to them.

There are two very important points I want to emphasize:

1) You **must** notify the Section secretary, Loretta Battaglia (email address given below), by JULY 15TH, that you are applying.

2) To qualify, the talk must be about VEGETATION SCIENCE (aka PLANTS). Talks that don't focus on plants will not be considered.

If you have any other questions, don't hesitate to contact me.

Regards,

Rick Boyce
Chair, Vegetation Section

=====

CFDA#:

OBJECTIVES: The Ton Damman Award will be given to a graduate student or very recent post-graduate scientist for the best oral presentation in Vegetation Science at the annual meeting of the Ecological Society of America.

ELIGIBILITY

A candidate for this award need not be a member of the Vegetation Section, but does need to be senior author of the abstract and give the oral presentation at the annual meeting.

FUNDING

The recipient will receive a framed certificate and cash award.
